All UK vendors are required to have an Active SAM (System for Award Management) registration to be considered for a US Government contract. Registering in SAM is free of charge and can take up to a number of days so it is advisable to register as soon as you are considering bidding on any advertised opportunity.

It is highly recommended that you work through the process following the steps of this guide.

The first steps require you to obtain a DUNS number and a NCAGE number, both are available free of charge.

DUNS Number

To obtain a free DUNS number, go to Dun & Bradstreet at www.dnb.co.uk. The process is usually pretty quick as long as your company is registered at company's house and your DUNS number is provided at the end of the request. If your company already has a DUNS number the same address must be used in all applications.

Entities wishing to do business with the federal government, such as the Federal Emergency Management Agency (FEMA), in the event of a natural disaster, can complete the Disaster Relief section. When national emergencies or natural disasters such as floods and hurricanes occur, supplies and services need to be procured and rushed to the affected area quickly. To expedite this process, the SAM Disaster Relief Registry shows those contractors who are willing to provide debris removal, distribution of supplies, reconstruction, and other disaster or emergency relief supplies and/or services. Collecting this information in SAM provides a means for potential local contractors to identify themselves to the federal agencies during a time of a disaster.
